Dura Temp Corporation Announces Opening of Regional Sales Office for Asia-Pacific

Manila, Philippines- Dura Temp Corporation, a leading provider of hot ware handling solutions for glassmakers worldwide for over 24 years, announced today the opening of a regional sales office in Manila, Philippines. An unsurpassed commitment to product quality, technical support, customer service, and an increase in sales across the globe necessitated the Company's expansion into the Asia-Pacific region. Ivan D. Dimaisip has been appointed as the Regional Sales Representative for the Asia-Pacific office.

The Manila sales office allows Dura Temp to respond quickly to customer requests and demands in the Asia-Pacific region. Contact details are as follows:

Dura Temp Asia-Pacific Sales Office
Unit No. 9 Z/F RVA Building
858 Remedios Street
Malate, Manila, Philippines, 1004
+63 2 521 2853 phone
+63 2 521 9133 fax

"We recognize the growth of the Asian market. As glass manufacturers move to lighter weight glass and higher production speeds, our ware handling applications provide solutions and greater efficiencies. Our new sales office in Manila allows us to better respond to and support these manufacturers," said Dave Rollins, President & CEO of Dura Temp Corporation.

Since 1983, Dura Temp Corporation has provided the glass industry with superior hot glass handling materials and quick-change parts and assemblies, providing a variety of ware handling solutions for container glass, tableware, and bending and tempering.

Dura Temp's range of high temperature materials and products virtually eliminate damage to glass on account of thermal stress, oil absorption, and abrasion. With a combination of leading-edge material technology and a systems approach that applies the right materials to the right applications, Dura Temp solutions are second to none.
