September 2024

Dear Dura Temp Customer,

We would like to formally invite you to visit Dura Temp's booth at Glasstec 2024 in Düsseldorf, Germany, October 22nd – 25th. Our booth is located in Hall 13 Stand A61. (Please see below layout.)

We will display our entire line of hot ware handling solutions for the gob forming, sweepout, transfer, and lehr areas. We will also have solutions for tableware handling on display. This year we are excited to feature a **new hot ware handling product** and our Generation IV Vortex Sweepout Assembly.

Dura Temp specializes in increasing pack rates for standard and specialty containers. We have many recent sweepout installation case studies that have led to improved handling, increased stability and straight-lining, and ultimately better packing rates. Our team of ware handling specialists invites you to visit our booth at Glasstec and discuss the support Dura Temp can offer for improved ware handling for your standard and specialty containers.

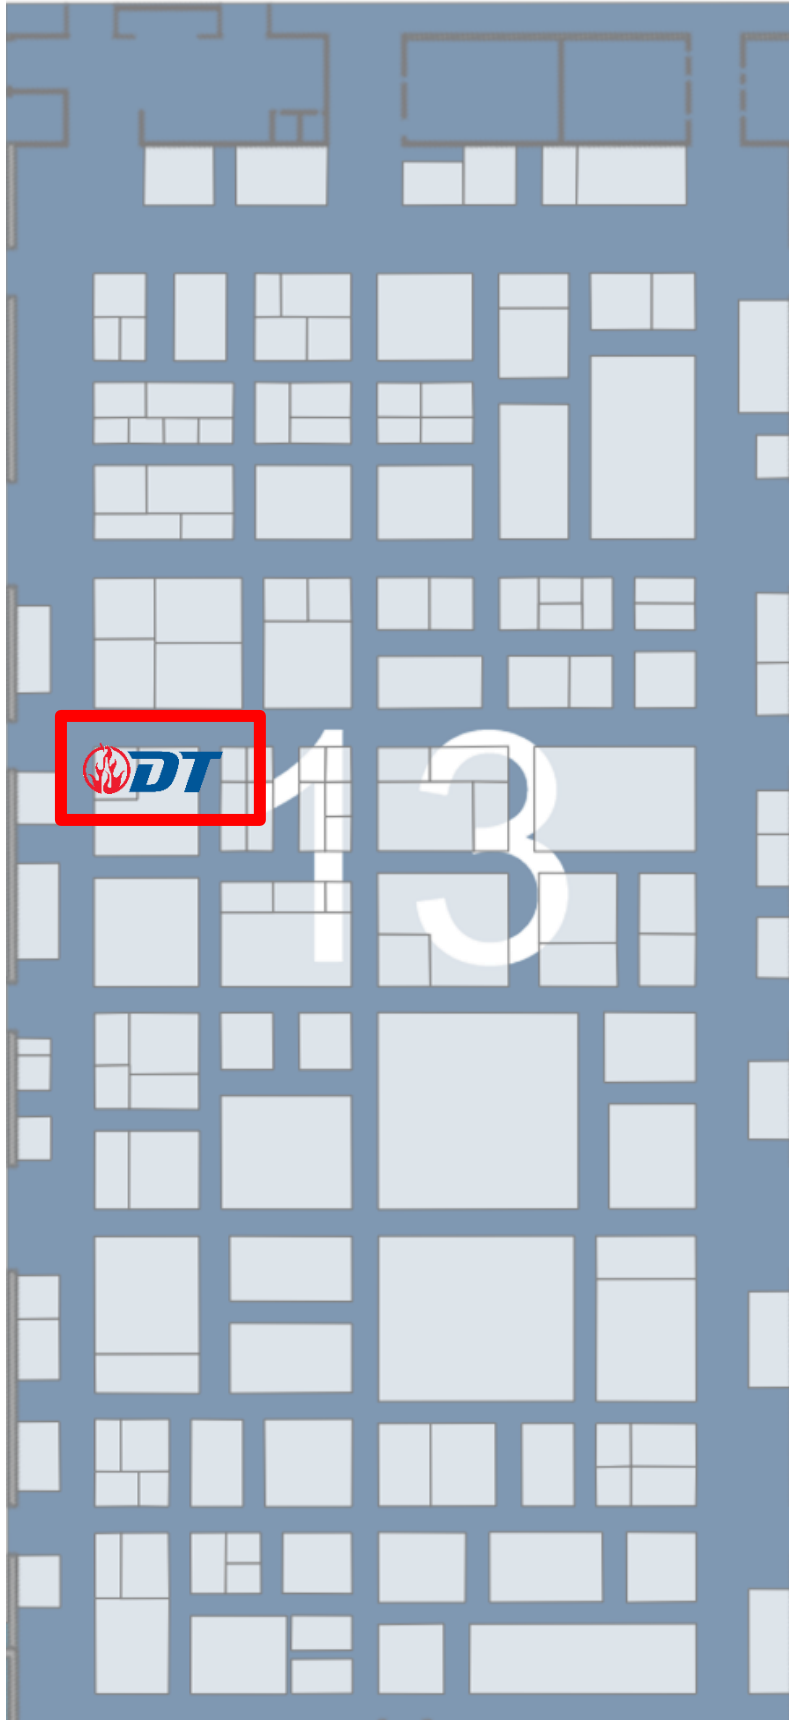

If you have any questions, please We look forward to seeing you at Glasstec 2024!

Sincerely,

The Dura Temp Team

Our Mission:
To Be The Best Provider of Hot Ware Handling Solutions for Glassmakers Worldwide
