Full Job Description - Technical Specialist

Dura Temp Corporation is looking for a Technical Specialist.

About Dura Temp Corporation:

We are a small privately owned company that is a leading provider of hot glass handling products to glassmakers worldwide since 1983. We supply product solutions to nearly 50 countries. Our customers come to us to quickly engineer cost-effective solutions for a wide range of technical challenges. Projects require us to be fast and accurate and are taken from the design concept phase all the way to product delivery and installation.

We are looking for someone who can:

- Conceptualize designs, prepare drawings, and follow through to production.
- Design specialty manufacturing equipment.
- Correspond directly with customers to develop project descriptions and scope.
- Work closely with the engineering and sales teams to deliver cost-effective solutions in a timely manner.
- Interact with various team members including Marketing, Sales, Quality Assurance, Manufacturing, and Purchasing, as well as suppliers to meet the specifications and needs of the customer. Assist teams with problem solving.

Other considerations include:

- Must be able to manage multiple projects and meet deadlines for completion.
- You will have the opportunity to make contributions to the business without having to go through layers of management.
- Your supervisors are knowledgeable in the industry and have an interest in your success.
- Opportunity for travel to various factories in the U.S. and other countries as well as occasional attendance at industry trade shows.
- This position is based in our Toledo, Ohio location (Holland) and the training process will require you to physically be in the office daily.

Requirements for this opportunity:

Education: Bachelor's degree in Mechanical Engineering or Associate degree with equivalent experience.

Our Mission:
To Be The Best Provider of Hot Ware Handling Solutions for Glassmakers Worldwide

Experience: 1-3 years related engineering experience. Sales or customer service experience a plus. Must be proficient with 3D CAD software (PTC Creo preferred)

Position Benefits:

- Salaried position
- Health Insurance
- Dental, Vision, and Life Insurance
- Paid Vacation
- Paid Holidays
- Paid sick time
- 401(k) program

For consideration, submit Resume to HR@duratemp.com
