FOR IMMEDIATE RELEASE

***Dura Temp appointed as the Authorized Distributor in the United States for Interglass S.A. de C.V.***

Dura Temp Corporation, a leading supplier in hot ware handling solutions, is pleased to announce that it has been appointed as the only Authorized Distributor in the United States for Interglass S.A. de C.V., based in Guadalajara, Mexico. Complimenting Dura Temp's line of hot ware handling solutions, Interglass products will add specialty lubricants for the glass industry to the company's current line of products. Interglass provides high performance lubricants, process and maintenance solutions which can significantly improve a glassmaker's competitiveness and reduce their ecological footprint. Interglass products focus on the finishing and forming process, where the impact on the final product is crucial and can only be assured through specialized solutions. The Interglass and Dura Temp teams will collaborate to create solutions that are tailored to the unique needs of each glassmaker.

Please visit us at [www.duratemp.com](http://www.duratemp.com) or email us at [sales@duratemp.com](mailto:sales@duratemp.com) for more information on Interglass's lubrication solutions.

Since 1983, Dura Temp Corporation has provided the glass industry with superior hot glass handling materials and quick-change parts and assemblies, providing a variety of ware handling solutions for container glass, tableware, and bending and tempering.

Dura Temp's range of high temperature materials and products virtually eliminate damage to glass on account of thermal stress, oil absorption, and abrasion. With a combination of leading-edge materials technology and a systems approach that applies the right materials to the right applications, Dura Temp solutions are second to none.
